Naturopathic Doctors in Halifax - Naturopath and Chiropractor Richard Bartlett first developed in the year 1997, a transformative healing system called Matrix Energetics after undergoing a life-altering event. Dr. Bartlett discovered that he could restore emotional, physical, spiritual and mental balance in individuals with gentle touching with focused intention. As an added extra, he was able to correct misalignments which had bothered a few of his patients for numerous years. Richard discovered that he can teach anybody this method that combines subtle energy with active imagination, quantum physics and focused intent.

The physical body is a resonating matrix of information in the biological field. According to Matrix energetics philosophy, the patterns within the resonating matrix may become transformed from physical or emotional injury. These disruptions can create ingrained habits or perceptions that could block an individual from acquiring a condition of prosperity, health, happiness and various positive situations. Matrix Energetics works to remove blockages, shift these embedded patterns and change core beliefs in order to enable the patient to attain their objectives in order to create the type of life and quality of life desired.

Matrix Energetics practitioners think that the limitations are the basis of a person's issues and that the healing system of Matrix Energetics can immediately get rid of these restrictions. This healing system is thought to remove the sources of both temporary and chronic issues like for instance scoliosis, fibromyalgia, emotional trauma, headaches and muscle spasms among others.

The Matrix Energetics system is designed to stand alone. Many practitioners use it in order to enhance other healing methods although it does not need to be at all combined with whatever other method. One session with a Matrix Energetics practitioner is capable of changing the belief system of the client and could transform his or her beliefs regarding the nature of disease, the healing process and the structure of reality. Usually, recipients could feel a wave pass through their bodies since their previous view of actuality is changed and this is where the Matrix Energetics system enters into the realm of quantum physics.

Space and time are not a part of realism at the quantum level. An individual's consciousness can have an effect on how subatomic particles behave, according to the quantum theory. In view of the fact that the universe is interconnected with quanta, or tiny wave particles of information, which can be transferred at a rate faster than the speed of light, these quanta could appear in all places simultaneously and even move forward and backward in time. An individual's consciousness could have an effect on these quanta to alter emotions and physical matter. This information and these views have been integrated into the Matrix Energetics treatments and are accountable for the changes that occur on the cellular level in the individual.
